

in The Secret Place of God's presence

soaking

In 1997 the Lord spoke to me and said, "I want to use you to turn the hearts of my people back to myself." I said, "Why Lord?" He said, "Because their hearts are everywhere."

The ministry of **The Secret Place** is one of turning hearts back to the Father through intimate praise and worship. It is a place of intimacy with the Father. It is a place where deep cries out to deep, and where the heart yearns for His touch.

Capturing a sound that is creatively fresh and unique, the songs of **The Secret Place** are not Christian entertainment, they are songs of the heart and simple intimate expressions of spontaneous prophetic worship. They are not polished performances, they are prayer in song. The music is not just a listening experience, it is a journey of worship.

There is a cry today in the hearts of God's people for a fresh touch from heaven. We need songs that are God-breathed, songs that are birthed in another world and can bring that world to us, songs that are so touched by His presence that they capture every heart for Him. There, in the secret place, we will be captivated by His love and consumed with His purpose for our lives. There, in the intimacy of worship, we will lay down our brief lives in pursuit of the greatest privilege ever offered to man - to be lovers of God.

*Ray Watson, with his wife Pam, pastors **Pursuit** church in Auckland, New Zealand. He has produced a number of albums that capture this new prophetic sound in worship, and travels as an itinerant helping to bring congregations into **The Secret Place** of God's presence.*
